

# 1989 Article Index

## Mechanical Design Software

### Drafting

Smart Drafting Systems, *February*, p. 40  
CAD Beats the Clock for Tractor Seat Design,  
*March*, p. 32

### 3D Design and Solid Modeling

Solid Modeling Helps Clean Up Three Mile Island,  
*January*, p. 6  
Mechanical Design on a Micro, *January*, p. 22  
High-Powered CAD Comes to the Mac, *January*, p. 47  
CAD for Hire, *February*, p. 53  
Nurbs for the Novice, *February*, p. 77  
CAD Beats the Clock for Tractor Seat Design,  
*March*, p. 32  
Why 3D Graphics?, *March*, p. 50  
Coast Guard Designs Ships on PCs,  
*April*, p. 10  
Converting Wireframes to Solids, *April*, p. 78  
Champion Beretta Designed with CAD, *May*, p. 26  
CAD Sets the Pace, *May*, p. 28  
Upgrading Custom Software, *May*, p. 69  
Smart CAD, *June*, p. 4  
CAD Brings Power Plant On-line, *June*, p. 20  
AutoCAD Breaks 640-Kilobyte Barrier, *July*, p. 10  
CAD in Toyland, *July*, p. 100  
Solid Modeling Speeds Yacht Design, *September*, p. 8  
Winning with MCAE, *September*, p. 26  
PC-Based Solid Modelers, *September*, p. 34  
MCAE Drives Truck Design, *October*, p. 8  
Bechtel Plugs into PC CAD and Networks,  
*October*, p. 34  
Putting Conceptual Design to Work, *October*, p. 58  
How Good Is PC CAD?, *November*, p. 26

### FEA

Multi-Platform FEA Slashes Solution Time,  
*January*, p. 20  
Checkup for Medical Instruments, *February*, p. 22  
More FEA for the Mac, *February*, p. 26  
Boundary Elements: The Other Analysis, *March*, p. 70  
Bringing FEA to the Designer, *April*, p. 38  
PC FEA Goes Nonlinear, *August*, p. 32  
Analyzing Cars by Computer, *October*, p. 64  
Speeding Up Desktop Analysis, *November*, p. 93

### Simulation and Testing

Optimizing the Jaguar Convertible, *February*, p. 24  
Simulation Slashes Military Vehicle Design Costs,  
*March*, p. 34  
Analyzing Injection Molds, *April*, p. 93  
Android Helps Design Chairs, *May*, p. 24  
Dynamic Analysis: Tackling the Tough Ones,  
*June*, p. 22

### Rendering and Animation

Cubcomp Comes Back to Engineering, *May*, p. 21  
E & S Targets New Markets, *August*, p. 8  
Graphics System Styles Auto Seats, *October*, p. 32

### Miscellaneous

Ironing Out IGES, *January*, p. 52  
Why Mechanical Engineers Should Do Windows,  
*January*, p. 75  
Expert Systems at Work, *February*, p. 56  
Electronic Data Transfer Cuts Review Cycle,  
*April*, p. 24  
Put Mips Where They Matter, *June*, p. 56  
Whatever Happened to MCAE?, *July*, p. 116  
DesignView Links Geometry and Equations,  
*September*, p. 69

## Manufacturing Software

### CIM

The Framework of CIM is in Place, *April*, p. 115  
Computer-Aided Process Planning: Last Piece of the  
CIM Puzzle, *August*, p. 46  
Integrating for the Competitive Advantage,  
*October*, p. 36

15 Ways to Link CAD and CAM, *October*, p. 48  
Software For Better Manufacturing, *October*, p. 70  
Closing the Loop in Information Flow,  
*November*, p. 1M1

### NC Programming

NC Keeps Pace, *February*, p. 28  
Machining Complex Surfaces, *May*, p. 52  
Tooling Maker Taps PC CAD/CAM, *August*, p. 56  
Precision CNC Programming, *September*, p. 22

## Electronics Design Software

Converting Wireframes to Solids, *April*, p. 78  
Toshiba Licenses Sun's Sparc Architecture,  
*July*, p. 10  
IC Tools Target the Big Chips, *September*, p. 80  
Philips Licenses Sun's Sparc, *October*, p. 24

## AEC Software

### Architectural Design

Boosting CAD Power with Database Management,  
*January*, p. 40  
Linking Design and Construction, *May*, p. 36  
Linking CAD with Structural Analysis,  
*September*, p. 70  
Safety First in Structural Analysis, *November*, p. 63

### Civil Engineering and Mapping

Technology Turns the Tide, *May*, p. 8  
CAD in Construction, *May*, p. 46  
Maps for Many Users, *July*, p. 104

## Hardware

### PCs

Mechanical Design on a Micro, *January*, p. 22  
High-Powered CAD Comes to the Mac,  
*January*, p. 47  
More FEA for the Mac, *February*, p. 26  
PCs Turn Out Technical Documents, *July*, p. 26  
Integrating Engineering Drawings and Text,  
*September*, p. 78

### Information Management

Openness and Standards, *April*, p. 6  
The Documentation Traffic Jam, *May*, p. 4  
Protecting CAD/CAM Data, *August*, p. 40  
Standards for Documentation Management,  
*August*, p. 52  
Untangling CAD/CAM Standards, *September*, p. 107

### Presentation Graphics

Presentation Graphics by Computer, *January*, p. 30  
Boosting CAD Power with Database Management,  
*January*, p. 40

### Miscellaneous

Out-of-Touch Management, *March*, p. 4  
Systems Integration at NCGA '89, *March*, p. 40  
Turn a Fax Machine into a Remote Plotter,  
*March*, p. 82  
CAD/CAM in the Real World, *April*, p. 4  
Design for Manufacturability, *April*, p. 28  
Macs Multiply, *April*, p. 99  
Choosing a PC Operating System, *June*, p. 66  
Boosting PC Power, *August*, p. 24  
PC FEA Goes Nonlinear, *August*, p. 32  
Integrating for the Competitive Advantage,  
*October*, p. 36

### Workstations

Apollo Shines Image with Rise Graphics,  
*February*, p. 6  
DEC Broadens Its Desktop, *February*, p. 7  
Solbourne Intros Sparc-Based Stations,  
*February*, p. 10  
Macs March into Engineering, *March*, p. 80  
A Wider World of Workstations, *April*, p. 26  
Affordable 3D Workstations, *July*, p. 108  
Is Sun Setting?, *August*, p. 61  
Apollo Fights Back, *September*, p. 9

## Large Computers

Who Needs Supercomputers?, *February*, p. 4  
Lowering the Cost of High-End Computing,  
*June*, p. 34  
E & S Targets New Markets, *August*, p. 8  
Arden and Stellar Merge, *October*, p. 12

## Networking

Distributed Computing at 3M, *June*, p. 46  
Office Network Links Factory Machines,  
*August*, p. 22  
X Terminals Hit the Market, *November*, p. 68

## Data Entry

Digitizers Boost CAD Productivity, *April*, p. 87  
Engineering Scanners Improve Their Image,  
*November*, p. 96

## Hardcopy

Plotters Tackle New Tasks, *January*, p. 56  
Hardcopy Standards are a Jumble, *March*, p. 103  
CalComp Plotter Taps Direct Imaging Process,  
*June*, p. 6  
Linking CAD to Microfilm, *June*, p. 62  
Buying Thermal Printers Without Getting Burned,  
*July*, p. 20

## Graphics Hardware

Better Monitors for PC CAD, *March*, p. 62  
What You Need is What You Get, *May*, p. 99  
Selecting PC Graphic Boards, *September*, p. 42

## Management Issues

### Industry Analysis

Outlook for '89, *January*, p. 4  
Mergers, Other Issues, Cloud CAD/CAM Strategies,  
*January*, p. 62  
Integrated Manufacturing, The Shape of Work to  
Come, *April*, p. 1M1  
Future Directions at McDonnell Douglas, *May*, p. 9  
Hewlett Packard Acquires Apollo,  
*May*, p. 9  
Apollo: The Final Chapter, *May*, p. 66  
The Politics of CAD, *July*, p. 4  
Computers by the Bushel,  
*September*, p. 86  
Heavy Metal in Germany,  
*October*, p. 78

### Justifying and Purchasing CAD

Is CAD Worth the Cost?, *May*, p. 60  
CAD/CAM Planning Guide '89, *July*, p. CAD/CAM 44  
Giving Users Freedom of Choice, *August*, p. 77  
Software Vendors Are Shooting Themselves in the  
Foot, *October*, p. 121

### Training

CAD the Second Time Around, *March*, p. 76  
Integrated Manufacturing, The Shape of Work to  
Come, *April*, p. 1M8  
Educating Workers for the Information Age,  
*June*, p. 95

### Communication

Solving the Factory Automation Paradox,  
*July*, p. 129  
Standards for Documentation Management,  
*August*, p. 52

### Electronic Publishing

ETP-CAD Link Speeds Documentation,  
*February*, p. 48  
ETP System Shapes Technical Documents, *July*, p. 7
